

GENANO AIR PURIFIERS

AUSTIN PURE AIR is introducing **GENANO MFI© TECHNOLOGY AIR PURIFIERS**, the unchallenged **leader** of air purifiers, cleaners, in the world. GENANO PRODUCTS have the best airborne particle remover, MFI©, which removes and kills above **99.5% to 99.9%** of all airborne particles down to **.001 microns – 1 nano, WITHOUT A FILTER**. This range includes all Viruses, Bacteria, and Mold Spores which has been certified by Independent Labs. There is **No MERV Rating** for this highest level of efficiency. **GENANO Products** are among the **GREENEST** of any **Green Products**. They are the most **energy efficient** of all air purifiers since air resistance is almost nil – the **energy savings** alone exceed all of **GENANO** costs. Genano products do not use any natural resources for filters, removes many gases, and even cleans themselves.

GENANO AIR PURIFIERS have a range of sizes from rooms to large Air Handler Units (AHUs) that are used in all sizes of buildings. **Genano's** largest AHU unit uses the energy of 2 or 3 light bulbs. Financing is available for all **GENANO** Products or Projects. Genano products are operating in more than 25 countries. **People Win, the Company Wins, and the EARTH Wins with GENANO.**
